

COMPANY OVERVIEW

LawWare Ltd was founded in 1995 and was incorporated in Scotland in 1998. The aim was to produce innovative software specifically for Scottish solicitors and offer a first class range of support services to assist Law firms to successfully implement the software and keep it operating smoothly thereafter. We have taken advice from the Law Society of Scotland and various industry analysts to grow and develop as a service focused organisation year on year. In 2003 LawWare moved its HQ to St. Andrew Square, Edinburgh. From here its flagship products are continually enhanced and supported by a dedicated team of project managers, developers, trainers and support staff.

Our values are straightforward –

- ▲ **We treat people as we wish to be treated ourselves**
- ▲ **We strive to set correct expectations and deliver these**
- ▲ **We mix endeavour with integrity and passion with commitment**

Our aims are unmistakable –

- ▲ **We focus on the Legal marketplace**
- ▲ **We produce software that saves time, saves money and reduces risk**
- ▲ **Our software is designed to increase fee earning productivity**
- ▲ **Our solutions will improve the quality of work undertaken on behalf of the client**
- ▲ **We support our clients with high quality services**
- ▲ **We remain as committed to existing clients as to new clients**
- ▲ **We want to grow our business in a controlled manner**

We have set ourselves real targets in terms of improving the efficiency of law firm staff by making it quicker to achieve tasks, which in turn improves the level of client service they supply to their clients. We have deliberately sought to create an integrated system so that operators are better and more fully informed in order to make the best decisions.

We strive to continually be at the forefront of software development for the legal profession in Scotland (and beyond through time). To achieve this we work closely with firms of all sizes

LawWare Success

Currently there are well in excess of 120 law firms throughout Scotland successfully using LawWare at the very core of what they do.

This has helped LawWare to become recognised as a leading solution provider.

Whether you are a single practitioner, a small, mid-sized or large firm – LawWare has a version of software to suit. However its not the size of your firm that determines which of our software Editions is best suited to you, its more to do with what you want to achieve from your LawWare system that determines which would be better. There is no one-size fits all approach here, instead there is recognition that all firms are different and it is better to have a real choice than no choice at all.
